2015 Ford Escape A/C Heater Blend Door Actuator

To blow heat into the cabin, the blower motor sends air through the heater core and on through the dash vents. But when heat is not desired, the blend door actuators direct that airflow away from the heater core. There are also actuators to direct air to the dash vents, floor vents and windshield vents depending which setting is selected.

Toyota Tacoma HVAC Blend Door Actuator Replacement Cost ...

This seems to be a common problem on some Escape and there is a technical service bulletin to resolve the problem which is caused by the blend door actuator. This opens and closes the bend door to regulate the air temperature. Here is the tech. service bulletin. I hope it will help to resolve the problem: A/C - Side To Side Temperature Variations
