Audi A4 Engine Burning Oil Problems - part 1

Hi! I have an Audi A4, and I took it to get an oil change about 2,000 miles ago. Since I took it to a place that specializes in foreign cars, I didn't check it right after they did it. My mother thought she

saw some oil in the driveway last week, so I decided to check my oil level to be sure I wasn't low. On the Audi dip-stick there's a dotted area about 1" long where the oil level is meant to ...

Too much oil in my Audi A4 (repost)? | Yahoo Answers

Comments: hello, I'm new to the turbo family and didn't know much about them until I picked up a 1997 audi a 4 1.8t the turbo was just replaced with a new unit, as I was informed by the seller, and at first I was concerned about the smoke and burning oil in the exhaust but eventually that cleared up and that was expected.

How to Replace the Oil Pump on an Audi A4 1.8 Turbo - YouTube

Hello, I followed this guide, and put 4.5 quarts of oil into my 2003 Audi A4 1.8T. And, 4.5 quarts is too much, my oil sensor light came on. And thankfully. I didn't have to drive it far to get home after the light came on. After doing more research, I found out the correct capacity is 3.5 quarts of oil.
