Garden Spaces: Plant a Dye Garden

The dyer's madder is in a separate bed, as it can be very invasive, but the bedstraws are developing well in the dye garden. I have hedge bedstraw (Galium mollugo, also known as Galium album), lady's bedstraw (Galium verum) and northern bedstraw (Galium boreale).

The Dyer's Garden Archives - Jenny Dean's Wild Colour

-Dyer's Coreopsis-African/French Marigod-Hopi Black Sunflowers-Japanese Indigo-Purple Basil-Woad (blue) The hollyhocks, marigolds and coreopsis came up first, with the woad being a close third. Then indigo and purple basil. It was 13 days before madder and st. johns wort showed any signs of life. After that they really took off!

How to plan a natural dye garden - Katie Grove Studios

Grow some dye plants in the garden, and take advantage of some wild dye plants as well. Different natural fibers (cotton, wool, linen or silk) will react differently with different dyes, so experiment with an assortment of plants and fibers.
