### How To Grade A College

A basic GPA is calculated by converting every letter grade to a grade point number and then finding the average. So after the letter grades are converted to numbers, simply add up all of the grade points and then divide by the number of classes.  $\text{Total Grade Points} \div \text{Total Number of Classes} = \text{GPA}$ . Here is Julie's report card for this semester.

### How to Calculate GPA - GPA Calculator

Grading usually is not a zero-sum game. In classes where the grading is curved, your grade is in fact determined by your position relative to other students in the class. But curves are not used ...
