With regards to chart patterns, a measured move is a method of determining the price objective of a price breakout or breakdown move, following the resolution of a pattern. This is very useful in...

Measured Moves in Pattern Forex Trading

The Measured Move is a three-wave chart pattern that corrects a previous trend and acts as a continuation to a recently established impulse. That may sound a bit confusing but it will become clearer to you once you understand each component of the pattern. The first wave of the Measured Move pattern acts as a reversal to the current trend.

...

Access Free Trading The Measured Move

The Bullish Measured Move consists of a reversal advance, a correction/consolidation and a continuation. Because the Bullish Measured Move cannot be properly identified until after the correction/consolidation period, it is categorized as a continuation pattern. The pattern is usually long-term and forms over several months.

Measured Move - Bullish [ChartSchool]

In essence, a measured move is a forecast of the upcoming price move after a chart event, including completion of a pattern. Unfortunately, these forecasts are seldom correct, or rather, they vary by too much from actual outcomes to serve as reliable trading guides. Taking dictation from the pattern
